

Noelia Machado was born in 1991 in Arroyito (Córdoba, Argentina). In 2013, she received her BSc degree in Chemistry at the Universidad Nacional de Córdoba (Argentina). She carried out the internship projects entitled "Synthesis and characterization of gemini surfactant derivatives from renewable resources" under the supervision of Prof. Mariana A. Fernández and "Obtaining intelligent interpenetrated and semi-interpenetrated polymeric networks" under the supervision of Prof. Marisa Martinelli. Both degree theses were carried out at the Universidad Nacional de Córdoba. Since 2014, she is a PhD Fellow from the National Research Council of Argentina. Her doctoral thesis "Design and characterization of amphiphilic systems for delivery of drugs and food additives" is carried out at the Universidad Nacional de Córdoba under the supervision of Prof. Mariana A. Fernández.
